Dear Hal,

Your 5/27 vybhelpful. Is it possible to get another copy of original GUNS? I went it from Jim G. I do not buy his frangible bullets, but he could be right. They are non-metallic and there are fragments.

Should write Lee but haven't had time. When next you write, please repeat address so I will not have to read through all those letters.

That's the same Sergio. His son was at Bay Pigs....I regard Marguerite Oswald as undependable witness, but the Korth thing persists.

All I know about Richter is what I told you. I trust them all and hope I won't make too many mistakes. I've made my share. I think, however, he is in basic agreement with us. I think CBS will do more or he'd not still be working.

CIA number: with his code Jim translated an entry into the CIA N.O. no.

I have original Itek-UPI pictures. Helpful. Show landscaping changes there.

Don't know Lincoln Lawrence. Too much flackery for it to be legit. The book is a fake. See enclosed. Stuart is a cheap crook, each and both. But he's coming out with a good book vs FBI.

Tapes: nice young men never met in Phila., Pa., Jack Waire, 2905 Longshore Ave., 19149. Vy modest circumstances, well informed subject. Also, Vince has a friend, Tom... with many tapes....I'd like the Aynesworth tape. Not familiar States-Item 5/5 story Clem Oswald, Leon Bertrand....Do not know re Beasley Plaza CIA charge. Suspect epileptic most likely. Suspect both parts your letter refer to same thing. If so, this I think most likely of events I recall. Perhaps some thing I do not recall....If you ever see any copies of original, preCommission Dillard pictures, I'd like. Not for Dave's dream.

Thanks for worrying about me, but don't. If I pay for this it will be delayed. My chief concern fatigue is inefficiency, dimmed recollection, simple error. I'll be away much of each day early next week and at the end to speak Ohio. Intend complete text PHOTOGRAPHIC WHITEWASH for Lil's typing by then. She'll start it tomorrow. As you know, I've spread much of my stuff on this around and others will be using and getting credit. I have reason to know I'll not be. Little concern. This book will have perspective its own. Unless agent comes up with contract immediate publication, we'll do it. Hate to. Too much work and too limited circulation. But it gets it done and out with no crap.

If it were not for the impossibility of my wife undertaking an additional 150,000 words typing now we'd do CIA WHITEWASH privately and get it out.

Stuff on Kessler what you told me. That ribbon precluded Termofaxing. I'll take it to N.O., with me. Will read yellow leaflet tonight. Interesting looking. There is more on Friends Democratic Cuba. Suspect turned into INCA (Butler) Sheridan NBC special man former ONI, DJ. You know what to expect...Something has happened in N.O. involving NBC and/or local station, but do not know details. Apparently not good. I spent night with him. He was then kind, seemingly helpful. Made two rolls film on me for "future".
